

Title: Senior Project Manager - idX Baltimore

Company Information:

idX is the leading custom fixture and millwork manufacturer in the world. With facilities strategically located throughout North America and operations expanding globally into Asia and Europe, idX is helping companies such as Charles Schwab, Discovery Channel, Levi's, Marriott, Michael Kors, Microsoft, Nike, Ralph Lauren, Starbucks and Tommy Hilfiger achieve their brand vision.

Our mission is to differentiate idX from the competition by offering the economic and operational benefits of an international company while servicing the customer like an entrepreneur. idX has the expertise to integrate multiple materials including wood, metal, glass, laminates and veneer into outstanding retail environments. With personalized attention, extensive capabilities and a focus solely on fixturing and millwork, idX continues to deliver passionate service and exceptional quality products to our customers.

idX Baltimore is located in Odenton, near Ft. Meade, Maryland. At this plant we manufacture these three products: wood, acrylic, and metal parts.

Description:

The Project Manager will be part of a team working to service our customers. This person will partner with manufacturing to ensure customer delivery while maximizing revenue and profitability.

Qualifications:

- Coordinate and manage all phases of the project/program, including order confirmations, sales orders, detailing, purchasing, production, delivery, and installation
- Develop and manage critical time lines. Obtain customer approval for these time lines and monitor the process through to completion
- Review and approve all design/detail architectural fixture drawings prior to release to customer
- Manage customer inventories, re-orders, and forecasts
- Support estimating and costing of programs, including the participation in cost reduction programs
- Embrace and capitalize on our ERP system
- Pursue revenue and gross margin growth in partnership with Sales and Operations
- Actively engage existing customers to achieve incremental business
- Ability to travel
